RaCE

Robótica para Crianças no Espectro

**Verifique se todas as peças estão presentes;
Siga os próximos passos.**

Separe as peças 5 e 6

Coloque a peça 6 sobre a 5 sem encaixá-las

Encaixe as duas peças com os pinos azuis da área A

5

Encaixe as duas peças com os pinos azuis da área A

Deixe bem encaixado para que as peças não se soltem

Deixe a guitarra de ponta-cabeça (com a tela para baixo) para encaixar os pinos da área A conforme os próximos passos

Encaixe as duas peças conectando os pinos pretos e azuis

6

5

**Deixe os pinos bem encaixados para que as peças
não se soltem**

Sua guitarra deverá ficar desta forma

Pegue a peça 2

Coloque a peça 2 no trilho formado na peça 6, como na imagem acima.

Pegue a peça 2

Encaixe a peça 2 nos pinos azuis da área A

Sua guitarra ficará assim

Pegue a peça 1

Prepara a peça 2 para encaixar a peça 1

1

2

Encaixe os pinos azuis

Deixe bem encaixado para que as peças não se soltem

Sua guitarra está quase pronta!

Pegue o cabo de conexão

Conecte o cabo a peça 1 e a entrada 4 da peça 6

Sua guitarra de Lego está pronta!
